Lakeside Luxury

This spectacular waterway is the result of the design expertise of Backyard Amenities. The homeowners desired a tropical

pool that would blend with the natural beauty of the scenic lakeside view. In addition to the aesthetic elements, they wanted the pool to function as a venue for entertaining friends and family.

Prior to construction, Backyard Amenities maintained constant dialogue with the homeowner and his wife so that all parties were in mutual understanding of the expectations. Since the project was located on a hillside, a steep slope proved challenging to the team. The construction team resolved this issue by leveling the hill and incorporating various stairs into the project.

SPECIAL FEATURES

360-degree waterfall;
creative lighting; lake
setting

CATEGORY: Naturalistic

To meet the homeowners' requirements for the pool to serve as a beautiful spot for entertaining, Backyard Amenities incorporated a handful of special features to complement the design elements and to make the pool appear as a natural enhancement to the pre-existing landscape. Such features include a 360-degree waterfall that serves as a stunning focal point, and creative, carefully placed lighting that frames the design and enhances its architectural shape. The end result is a waterway that is both a functional and a sight to behold.
